

Top shields

(for use on Kenex lower body shields)

Standard height & reduced height (lift-off & fold-down)

Removable, 0.5mm Pb X-ray protective top shields

Top shields quickly and easily attach to different table mounted Kenex lower body radiation shields, providing additional protection to the user (see over for compatibility). They slot into docking holes and can be mounted and removed in an instant. Standard height tops stand 25 cm above the centre line of the tableside rail, reduced height tops are 10 cm shorter and stand 15 cm above. Most can be stored on a wall rack when not required (available separately).

Lower body radiation shield shown with three **standard height** top shields

Lower body radiation shield shown with three **reduced height** top shields

Lower body radiation shield showing the location of optional top shields

Optional wall rack, 312/W-TOP
Holds 1 x 57 cm & 2 x 27 cm tops (tops not included)
