

# Top shields

Standard & reduced height (for use on Kenex lower body shields)

## Removable, 0.5mm Pb X-ray protective top shields

Top shields quickly and easily attach to different table mounted Kenex lower body radiation shields, providing additional protection to the user (see over for compatibility). They slot into docking holes and can be mounted and removed in an instant. Standard height tops stand 25 cm above the centre line of the table side rail, reduced height tops are 10 cm shorter and stand 15 cm above. Most can be stored on a wall rack when not required (available separately).
